Welcome & Introduction

Welcome to Calvary Chapel Bible College, Distance Learning. Distance Learning has been providing learning opportunities since 1985. It was developed in order to allow students who are unable to attend the main campus or an extension site, to obtain the same quality of education and degree as our resident students. The school has grown rapidly, attracting students from all over the United States and several other countries including Australia, Canada, England, Ireland, Germany, Italy, Russia, India, and South Korea. Distance Learning is comprised of two mediums of study: the School of Correspondence Education and the School of Online Education.

The School of Correspondence Education is a paper-based program which offers classes through the mail. This may be preferable for the student who would like a more hands-on, concrete approach to the assignments, or does not have reliable internet access necessary for the online program. The student may contact the Academic Supervisor at any time throughout the course for instruction on assignments.

To make the Bible college education available to those incarcerated, the Prison Education program was developed. Classes through this medium are much the same as the Correspondence program in that they are paper based and the requirements are very similar. However, some policies have been altered to better fit the prison system and aid the student in completing the requirements, for example: timeframe, audio format, and sponsors inside and outside the prison to ensure that the materials are delivered and any questions are sufficiently answered.

The School of Online Education was developed in an effort to offer courses with increased flexibility and less expense to the student who prefers an electronic format. This program offers the flexibility of accessing your course lectures and materials anywhere in the world where high-speed internet is available. Another added benefit of this program is the increased communication with the student. Course assignments are uploaded as they are completed throughout the duration of the course and responded to, thus giving the student a clearer understanding of how they are doing in the course as they progress.

In our effort to make an undergraduate Bible college education available to students in *developing nations* we have created a special tuition and administrative fee schedule. The International Student Program (ISP) applies **ONLY** to the School of Online Education.

Our course list is as up-to-date as possible. If we add classes or make changes, we will do our best to inform you of these changes. If you have questions, contact our office and we would be glad to assist you in any way possible.

Academic Calendar

Distance Learning Education provides classes to students without the seasonal limitations of traditional fall and spring semesters. Enrollment is open throughout the year, Monday - Friday. You can enroll at any time during the month and begin as soon as your coursework/login information arrives, even if it is before the official start date.

The Academic Calendar operates as follows:

Correspondence:

A new module begins each month. The modules are 16 weeks long. Each module begins on the first Monday of the month and ends 16 weeks later. Each module ends on a Monday, unless the Start Date or Due Date falls on a holiday on which the Post Office does not deliver mail. In this case the end date falls on the next business day. The Start Date and Due Date will be indicated in the front of the course guide issued for each course. Registration for each module is three weeks long and ends two weeks before the module begins. This gives us time to process your order and ship your course materials to you.

Prison:

The Prison modules are similar to the Correspondence modules with a few exceptions. They are 24 weeks long instead of the 16-week time period. The registration dates, however, are the same.

Online/ISP:

A new enrollment period begins on the 15th and on the 30th of each month. Each Course End Date is exactly 4 months from the Start Date. At this time, the student will be un-enrolled and no longer have access to the class. If a student registers for a course between the 1st and the 15th of the month, he/she will be placed in the enrollment period beginning on the 15th. If the student registers between the 16th and the 30th, he/she will be placed in the enrollment period beginning on the 30th.

Correspondence & Online Extension Policy

If for some reason you will not be able to complete your course, you may purchase a \$50 extension during the last week of your course. This extends your course an additional four weeks; however, 10 points will be deducted from your final grade. A maximum of two extensions may be purchased for any class.

The course includes careful examination of the lives of those who God raised up during the time of Judges to deliver Israel from her oppressors. The course objective is that the student may learn from the faithlessness and compromise of the characters found in Judges and subsequently cleave to the Lord with a risk-taking faith, entering into the fullness of the victory He has given.</p>	<p>Textbooks Be Available By: Warren Wiersbe Why Revival Tarries By: Leonard Ravenhill</p> <p>Corres. \$260</p> <p>Online \$240</p> <p>Prison \$94 (MP3)</p>
